

DJ Sound & Lighting Inc.

AUDIOVISUAL EXPERTS

SOUND LIGHTING VIDEO

Video Montage & Presentations

For an wedding, anniversary or retirement party DJ Sound & Lighting can project your images up on screen. You provide us with some photographs of the guest of honor and we create a moving video montage set to music. This is a great way to reminisce and relive some great memories with family and friends. Brides and grooms can even surprise your guests with the presentation.

We can provide various size screens for any room size and budget.

During the event we can also switch between sources as well as generate personalized messages on screen. ***Our projection possibilities are unlimited!***
